7 location

how beeg range?

change loc

- will i'manks it
- range
- change location
- refresh loc.

link back to events select events

check if you can make it.

→ can alter it →

→ open sources

event time

figure how long from you

lee event

↳ check traffic

be get from your

get_coordinates

↳ long. latitude

↳ use system time & check if you'll make

JSon

under Ranking sys

↳ same-ish like home page

↳ all events saved

↳ all events purchased

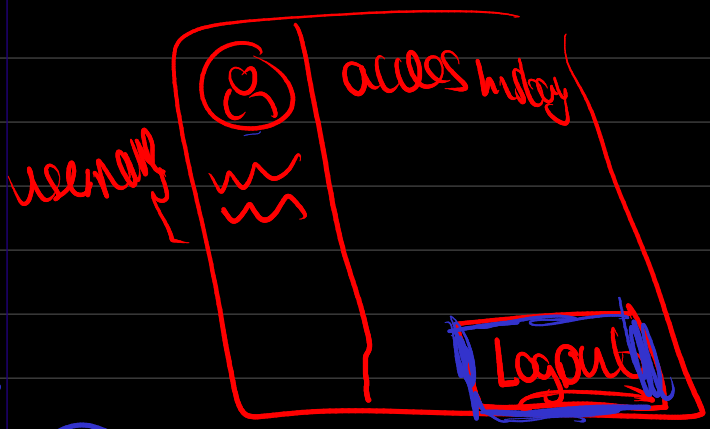
3 pages

↳ group event – maybe

↳ can we link accounts

Profile

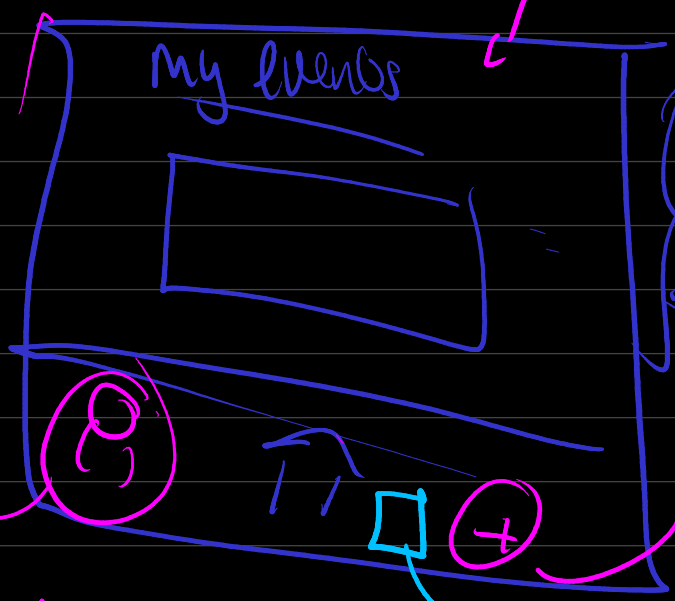
history →



Yeshang will implement liquid glass

↳ user, loading a event.

Planning event



home page

also admin a debrief

same-ish view as finder

profile same-ish as finder

add events

↳ instead events that you've attended, it events that you've hosted

analytics

↳ incorporate earnings/income

↳ incorporate ratings & reviews

↳ add later (reports/etching stuff.)

↳ H.R
